

Leader in electric motors & drives

is looking for a

Quality & After Sales Engineer m/f

Reference EC733

THE COMPANY

Based in Walloon Brabant, but operating in the Benelux market, our client is specialized in the development, production and sales of electric motors and drives.

The company is part of a well-known international brand with world-wide production and facilities.

The company is actively searching for a Quality & After Sales Engineer for motors and drives product range.

THE POSITION

- As Quality & After Sales Engineer specialized in motors, you will build long-term relationships with Key Accounts throughout Europe (but mainly situated in Flanders), with workshops, inspectors, internal teams and factories.
- You will be responsible for answering all technical requests, analyzing and writing technical as well as quality reports, editing offers for fixing and compliance.
- You will be responsible for carrying out occasional field visits for following up technical issues, warranty requests as well as services in general).
- You will be responsible for all the administrative follow up within the company.

PROFILE

Qualifications

- You have a Master in electricity or electro-mechanics
- Knowledge of Quality Systems (ISO,...) and Quality Tools (FMEA,...)
- Knowledge of motors and/or frequency drives is a must
- You have a successful experience in a similar position as a technical analyst
- You can build a network from people in different activities in different functions (Engineering purchase, maintenance...)
- You are independent and enthusiast with strong communicative and organizational skills
- You have good knowledge of Dutch, English and French language.
- You have a good knowledge of Office tools.

OFFER

The company offers you a rewarding job in an ambitious multinational team with a high local added value.

The hired person can count on an indefinite contract with an attractive salary associated with various extralegal benefits.

You will also benefit from a training period to familiarize yourself with the specificities of the company and to have the means necessary for the function.

APPLY

If you match the profile and if you are motivated to successfully meet this challenge, please send your resume and cover letter to: eric.croisy@adva-consult.com

Please mention the reference EC733.

Your application will be treated with full confidentiality. We can only ensure that your application is considered correctly if your profile matches the prerequisites.
