

**Leader in electric motors & drives**

is looking for a m/f

**Service Engineer**

Reference EC792

**THE COMPANY**

Based in Walloon Brabant, and operating in the Benelux market, our client is specialized in the development, production and sales of electrical equipment's for industrial processes (motors, drivers,...). The company is part of a well-known international brand with world-wide production and facilities.

Due to its actual growth, the company is actively searching for a Service Engineer.

**YOUR RESPONSIBILITIES**

- As Service Engineer specialized in drives and motors, you build up long-term relationship with end user customers, OEM's and distributors throughout Europe, as well as with our workshop, internal team and factories.
- You are responsible for carrying out field visits for commissioning and services in general as well as following up technical issues and warranty requests.
- You are responsible for performing parameterization, modifications, assembling, repairs and inspections on new and used products.
- You are responsible for answering technical requests, analyzing and writing technical reports, editing offers for fixing and compliance.
- You are responsible for the administrative follow up within the company

*More details on demand.*

## PROFILE

- You have a technical master degree (electricity or electro-mechanics).
- You have a strong willingness to learn
- Knowledge of frequency drives and motors is a must
- You have a successful first experience in a similar position
- You can build a network from people in different activities in different functions (Engineering purchase, maintenance, workers...)
- You are independent and enthusiast with strong communicative and organizational skills
- You have good knowledge of English and French languages, Dutch is a must.
- You have a good knowledge of Office tools

## OFFER

A stable and rewarding job in a pleasant work environment, within a dynamic and ambitious company with a high local added value.

The hired person can count on an indefinite contract with real career possibilities as well as an attractive salary associated with various extra-legal benefits.

You will also benefit from a training period to familiarize yourself with the specificities of the company and to have the means necessary for the function.

## APPLY
